

Dauphin Dog Training Club

presents

Britney Imhof

World Agility Open Gold Medalist

March 11-12, 2023

Saturday, March 11th 9:00am – Noon - Agility Foundations for Puppies and Young Dogs

Start your agility off right! Britney will assess where you and your dogs are in your agility journey and help you take the next steps with your training. She will advise each team on how to build and strengthen skills for both the dog and the handler. Course work for young or inexperienced dogs to include basic sequences, jumps and tunnels. Equipment will be added depending on the experience level of the dog.

Saturday, March 11th 1:00 – 4:00pm Lines and Critical Points

It is important for all handlers to be able to identify and handle agility lines correctly and critical connection points. Most NQs occur due to a handler not cueing a line correctly or not connecting at a critical point on the dog's line. This half day seminar will focus on how to identify lines and critical points and how to build those skills. Open to all level of dogs.

Sunday, March 12th (Two sessions) Masters/Premier Workshop

8:00 – Noon or 12:30-4:30pm

Agility courses continue to present handlers with new and exciting challenges. This seminar will cover how to meet these challenges successfully. Skills required for these courses will be tested, and we will explore the best handling solutions for you and your dog specifically. Proofing skills is imperative to advance as a team. Strengthening commitment points, agility lines and critical connection points, proofing fundamentals of crosses, and extension vs collection are some of the topics that will be covered. Dogs should be competing at the Excellent/Masters levels.

**Seminar will be held on-site at 719 Manada Bottom Road in East Hanover Twp Harrisburg Pa.
Fully matted, heated, air-conditioned, handicapped accessible and situated on five fenced acres.
Plenty of parking and exercise space for dogs.**

REGISTRATION IS OPEN NOW
